

# Sonnet™

**A Wettable Powder Biofungicide**

## **Integrated Pest Management (IPM) takes major step forward with Biological Disease Control**

- The world's number one IPM Biofungicide formulation from the Agricultural markets is now available exclusively from **United Turf Alliance**
- The goal of IPM is to balance management of pests and protection of the environment, Sonnet allows turfgrass and landscape managers to do both
- IPM offers a sustainable approach to managing pests by establishing thresholds then combining biological, chemical, cultural, mechanical and physical tools to minimize economic, health and environmental risks
- IPM demonstrates the turf and landscape professional's environmental stewardship, and supports the goals of Audubon International and the Environmental Institute for Golf
- Implementing a well-rounded IPM program usually results in reduced overall chemical usage
- When chemicals are required to prevent and cure fungal pathogens, it is important to judiciously apply the best products with the least impacts. . . that is where Sonnet fits best
- QST 713 Strain of Bacillus Subtilis (the active ingredient in Sonnet) has been tested and proven at universities across the U.S. to be an effective biological fungicide
- Biological control is the use of living organisms (or byproducts of living organisms) to control other living organisms, including the use of bacteria, fungi, nematodes, parasitic or predaceous insects and plant extracts, etc
- Sonnet is OMRI Listed and has a low impact on non-target species & overall environment, making it the ideal biofungicide for IPM. The Sonnet multi-site, mode-of-action also supports IPM by managing disease resistance, which may preserve traditional chemical fungicide effectiveness even at reduced rates (FRAC Code 44)

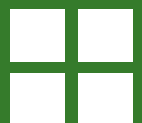

**Better Quality. More Control. Smart Chemicals.**

**KEEP IT GREEN**

**Can be Used for Organic Production**

**United Turf Alliance**

Always read and follow the product label for specific uses, rates and precautions. For more information visit [www.UTAArmorTech.com](http://www.UTAArmorTech.com)
