

# ALT 70

## ArmorTech ® ALT 70 TURF FUNGICIDE

ALT 70 is a 70% formulation of Aluminum-Tris with a Dye package in a WDG formulation.

ALT 70 is a turf fungicide proven effective in control of Pythium and prevention of bentgrass decline and Anthracnose (in a combination).

## BENEFITS AND USES

### ■ Turf Quality (bentgrass decline)

4 years of Turf Studies at 3 different universities where ALT 70 was used in combinations with PPZ 143 MC and CLT 720 FL showed Turf Quality was superior to competitive products.

### ■ Anthracnose

ALT 70 combined with CLT 720 FL performed the best during all measured periods to prevent Anthracnose

### ■ Pythium

Average Pythium control for the 6 rating periods as well for each rating period was best using ALT 70 @ the 4.57 oz/m application rate every 7-14 days

## PACKAGING AND RATE

6.3 Pound Bag

4 Bags per Case

4.57 oz per 1000 sq ft

Always read and follow the product label for specific uses, rates and precautions. For more information visit [www.UTAArmorTech.com](http://www.UTAArmorTech.com)
